
Oklahoma CASA: Social Distance Training Protocol

Oklahoma CASA endeavors to approach staff training in FY2021 with both safety and necessity in mind. We have established a set of protocols enabling us to continue educating and equipping CASA staff around the state.

These protocols include:

- A large meeting room located in our office building in OKC
- 6 feet of space around each participant and the use of their own training table
- Provision of face coverings, sneeze guards for refreshment tables, and hand sanitizer
- Participants may choose to wear face masks throughout the trainings
- Participants may choose to provide their own food/drinks

Oklahoma CASA encourages local programs to make arrangements such as these to aide you in carrying on the crucial task of Volunteer Training so you may continue to sustain and grow your service reach.
